Mr. Williams,

As President of the City of Sunrise Fraternal Order of Police, I am writing to express concerns regarding the Sunrise Police Pension Board of Trustees. I am the representative for Sunrise Police Officers and Sergeants and I strongly advocate for a retired police officer to join the board as its fifth member. This expertise ensures decisions prioritize officers' welfare and retirement security, guaranteeing informed choices on pension and savings options.

Key benefits:

- **Informed Decision-Making:** Retired police officers understand the unique needs of law enforcement personnel.
- **Prioritized Welfare:** Decisions focus on officers' well-being and retirement security.
- **Financial Protection:** Police officers secure comfortable retirements through informed pension management.

The City of Sunrise Police Officers' Retirement System already outlines pension benefits, including tiered benefit formulas and investment guidelines. However, direct representation on the pension board of trustees remain crucial.

Police officers managing their pension plan ensures it aligns with their distinct requirements.

By advocating for a retired police officer on the board of trustees, we prioritize officers' welfare and financial security.

Steve Negrón

Lodge President | City of Sunrise Fraternal Order of Police
